TEST BANK

Principles of Pediatric Nursing: Caring for Children, 7e Jane W. Ball (et al.) Test Bank

Chapter 1: Nurse's Role in Care of the Child: Hospital, Community, and Home Chapter 2: Family-Centered Care and Cultural Considerations Chapter 3: Genetic and Genomic Influences Chapter 4: Growth and Development Chapter 5: Pediatric Assessment Chapter 6: Introduction to Health Promotion and Maintenance Chapter 7: Health Promotion and Maintenance for the Newborn and Infant Chapter 8: Health Promotion and Maintenance for the Toddler and Preschooler Chapter 9: Health Promotion and Maintenance for the School-Age Child and Adolescent Chapter 10: Nursing Considerations for the Child in the Community Chapter 11: Nursing Considerations for the Hospitalized Child Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid-Base Balance Chapter 19: Alterations in Respiratory Function Chapter 20: Alterations in Gardiovascular Function Chapter 21: Alterations in Hematologic Function Chapter 22: Alterations in Gastrointestinal Function Chapter 23: Alterations in Gastrointestinal Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Mourologic Function Chapter 26: Alterations in Mourologic Function Chapter 27: Alterations in Mourologic Function Chapter 28: Alterations in Mourologic Function Chapter 29: Alterations in Skin Integrity	Table of contents
Chapter 3: Genetic and Genomic Influences Chapter 4: Growth and Development Chapter 5: Pediatric Assessment Chapter 6: Introduction to Health Promotion and Maintenance Chapter 7: Health Promotion and Maintenance for the Newborn and Infant Chapter 8: Health Promotion and Maintenance for the Newborn and Infant Chapter 9: Health Promotion and Maintenance for the School-Age Child and Adolescent Chapter 10: Nursing Considerations for the Child in the Community Chapter 11: Nursing Considerations for the Hospitalized Child Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Chronic Condition Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid-Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Gardiovascular Function Chapter 21: Alterations in Hematologic Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Genitourinary Function Chapter 28: Alterations in Genitourinary Function Chapter 29: Alterations in Mental Health and Cognition Chapter 29: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 29: Alterations in Mental Health and Cognition Chapter 29: Alterations in Endocrine and Metabolic Function	Chapter 1: Nurse's Role in Care of the Child: Hospital, Community, and Home
Chapter 4: Growth and Development Chapter 5: Pediatric Assessment Chapter 6: Introduction to Health Promotion and Maintenance Chapter 7: Health Promotion and Maintenance for the Newborn and Infant Chapter 8: Health Promotion and Maintenance for the Toddler and Preschooler Chapter 9: Health Promotion and Maintenance for the School-Age Child and Adolescent Chapter 10: Nursing Considerations for the Child in the Community Chapter 11: Nursing Considerations for the Hospitalized Child Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid-Base Balance Chapter 19: Alterations in Respiratory Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Immune Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Genitourinary Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Mental Health and Cognition Chapter 29: Alterations in Mental Health and Cognition	Chapter 2: Family-Centered Care and Cultural Considerations
Chapter 5: Pediatric Assessment Chapter 6: Introduction to Health Promotion and Maintenance Chapter 7: Health Promotion and Maintenance for the Newborn and Infant Chapter 8: Health Promotion and Maintenance for the Toddler and Preschooler Chapter 9: Health Promotion and Maintenance for the School-Age Child and Adolescent Chapter 10: Nursing Considerations for the Child in the Community Chapter 11: Nursing Considerations for the Hospitalized Child Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid-Base Balance Chapter 19: Alterations in Respiratory Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Hematologic Function Chapter 23: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 29: Alterations in Musculoskeletal Function Chapter 29: Alterations in Mental Health and Cognition Chapter 29: Alterations in Endocrine and Metabolic Function	Chapter 3: Genetic and Genomic Influences
Chapter 6: Introduction to Health Promotion and Maintenance Chapter 7: Health Promotion and Maintenance for the Newborn and Infant Chapter 8: Health Promotion and Maintenance for the Toddler and Preschooler Chapter 9: Health Promotion and Maintenance for the School-Age Child and Adolescent Chapter 10: Nursing Considerations for the Child in the Community Chapter 11: Nursing Considerations for the Hospitalized Child Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid-Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Immune Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Neurologic Function Chapter 29: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 29: Alterations in Endocrine and Metabolic Function	Chapter 4: Growth and Development
Chapter 7: Health Promotion and Maintenance for the Newborn and Infant Chapter 8: Health Promotion and Maintenance for the Toddler and Preschooler Chapter 9: Health Promotion and Maintenance for the School-Age Child and Adolescent Chapter 10: Nursing Considerations for the Child in the Community Chapter 11: Nursing Considerations for the Hospitalized Child Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid-Base Balance Chapter 19: Alterations in Respiratory Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Hematologic Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Musculoskeletal Function Chapter 29: Alterations in Musculoskeletal Function Chapter 29: Alterations in Musculoskeletal Function Chapter 29: Alterations in Endocrine and Metabolic Function	Chapter 5: Pediatric Assessment
Chapter 8: Health Promotion and Maintenance for the Toddler and Preschooler Chapter 9: Health Promotion and Maintenance for the School-Age Child and Adolescent Chapter 10: Nursing Considerations for the Child in the Community Chapter 11: Nursing Considerations for the Hospitalized Child Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid-Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Hematologic Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Genitourinary Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Neurologic Function Chapter 29: Alterations in Mental Health and Cognition Chapter 29: Alterations in Mental Health and Cognition Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 6: Introduction to Health Promotion and Maintenance
Chapter 9: Health Promotion and Maintenance for the School-Age Child and Adolescent Chapter 10: Nursing Considerations for the Child in the Community Chapter 11: Nursing Considerations for the Hospitalized Child Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid-Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Gardiovascular Function Chapter 22: Alterations in Hematologic Function Chapter 23: Alterations in Gastrointestinal Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Genitourinary Function Chapter 26: Alterations in Neurologic Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 7: Health Promotion and Maintenance for the Newborn and Infant
Chapter 10: Nursing Considerations for the Child in the Community Chapter 11: Nursing Considerations for the Hospitalized Child Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid-Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Gardiovascular Function Chapter 22: Alterations in Hematologic Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Neurologic Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Mental Health and Cognition Chapter 29: Alterations in Mental Health and Cognition Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 8: Health Promotion and Maintenance for the Toddler and Preschooler
Chapter 11: Nursing Considerations for the Hospitalized Child Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid-Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Immune Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Neurologic Function Chapter 29: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 9: Health Promotion and Maintenance for the School-Age Child and Adolescent
Chapter 12: The Child with a Chronic Condition Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid—Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Immune Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 10: Nursing Considerations for the Child in the Community
Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid—Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Cardiovascular Function Chapter 21: Alterations in Cardiovascular Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Neurologic Function Chapter 29: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 11: Nursing Considerations for the Hospitalized Child
Chapter 14: Infant, Child, and Adolescent Nutrition Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid—Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Immune Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 12: The Child with a Chronic Condition
Chapter 15: Pain Assessment and Management in Children Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid—Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Immune Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 13: The Child with a Life-Threatening Condition and End-of-Life Care
Chapter 16: Immunizations and Communicable Diseases Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid–Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Immune Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 14: Infant, Child, and Adolescent Nutrition
Chapter 17: Social and Environmental Influences on the Child Chapter 18: Alterations in Fluid, Electrolyte, and Acid–Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Immune Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 15: Pain Assessment and Management in Children
Chapter 18: Alterations in Fluid, Electrolyte, and Acid—Base Balance Chapter 19: Alterations in Eye, Ear, Nose, and Throat Function Chapter 20: Alterations in Respiratory Function Chapter 21: Alterations in Cardiovascular Function Chapter 22: Alterations in Immune Function Chapter 23: Alterations in Hematologic Function Chapter 24: The Child with Cancer Chapter 25: Alterations in Gastrointestinal Function Chapter 26: Alterations in Genitourinary Function Chapter 27: Alterations in Neurologic Function Chapter 28: Alterations in Mental Health and Cognition Chapter 29: Alterations in Musculoskeletal Function Chapter 30: Alterations in Endocrine and Metabolic Function	Chapter 16: Immunizations and Communicable Diseases

Principles of Pediatric Nursing: Caring for Children, 7e Jane W. Ball (et al.)

Chapter 1: Nurse's Role in Care of the Child: Hospital, Community, and Home

1) Which nursing role is *not* directly involved when providing family-centered approach to the

pediatric population?

1. Advocacy

2. Case management

3. Patient education

4. Researcher

Answer: 4

Explanation: 1. A researcher is not involved in the family-centered approach to patient care of

children and their families. Advocacy, case management, and patient education are all roles

directly involved in the care of children and their families.

2. A researcher is not involved in the family-centered approach to patient care of children and

their families. Advocacy, case management, and patient education are all roles directly involved

in the care of children and their families.

3. A researcher is not involved in the family-centered approach to patient care of children and

their families. Advocacy, case management, and patient education are all roles directly involved

in the care of children and their families.

4. A researcher is not involved in the family-centered approach to patient care of children and

their families. Advocacy, case management, and patient education are all roles directly involved

in the care of children and their families.

Page Ref: 4

Cognitive Level: Analyzing

Client Need &Sub: Safe and Effective Care Environment: Management of Care

Standards: QSEN Competencies: Patient-centered care | AACN Essential Competencies:

Essential II: Basic organizational and systems leadership for quality care and patient safety

NLN Competencies: Professional identity | Nursing/Integrated Concepts: Nursing Process:

Assessment/Coordination of care

Learning Outcome: LO 1.2 Compare the roles of nurses in child healthcare.

MNL LO: Family-centered care

2) A nurse is working with pediatric clients in a research facility. The nurse recognizes that federal guidelines are in place that delineate which pediatrics clients must give assent for participation in research trials. Based upon the client's age, the nurse would seek assent from

which children?

Select all that apply.

1. The precocious 4-year-old commencing as a cystic fibrosis research-study participant.

2. The 7-year-old leukemia client electing to receive a newly developed medication, now being

researched.

3. The 10-year-old commencing in an investigative study for clients with precocious puberty.

4. The 13-year-old client commencing participation in a research program for Attention Deficit

Hyperactivity Disorder (ADHD) treatments.

Answer: 2, 3, 4

Explanation: 1. Federal guidelines mandate that research participants 7 years old and older must

receive developmentally appropriate information about healthcare procedures and treatments and

give assent.

2. Federal guidelines mandate that research participants 7 years old and older must receive

developmentally appropriate information about healthcare procedures and treatments and give

assent.

3. Federal guidelines mandate that research participants 7 years old and older must receive

developmentally appropriate information about healthcare procedures and treatments and give

assent.

4. Federal guidelines mandate that research participants 7 years old and older must receive

developmentally appropriate information about healthcare procedures and treatments and give

assent.

Page Ref: 11, 12

Cognitive Level: Applying

Client Need &Sub: Psychosocial Integrity

Standards: QSEN Competencies: Patient-centered care | AACN Essential Competencies:

Essential V: Healthcare policy, finance, and regulatory environments | NLN Competencies:

Nursing judgement | Nursing/Integrated Concepts: Nursing Process: Planning/Coordination of

care

Learning Outcome: LO 1.6 Examine three unique pediatric legal and ethical issues in pediatric

nursing practice.

MNL LO: Developmentally appropriate care
